   Science News; v. 118, December 13, 1980, p. 374 (GS)

71) Love Canal: Common Law approaches to a modern tragedy.
   Theodore Baurer, Ackerly & Becker Ltd. Washington, D.C.
   Environmental Law; v. 11 n. 1, Fall 1980, p. 133 survey report (EA)
72) Public health issues: Benedectin, Love Canal. [letters]
    B. Paigen, M. Levine. bibl. footnote Science; v. 211, January 2, 1981, p. 6+ (RG)

73) Love Canal: How culpable is the city?
    Science News; v. 119, January 17, 1981, p. 42 (GS)
Delineates amount and form of relocation payments and benefits allowed by New York State.

3) Amended Love Canal Certificate of Approval of Availability, October 23, 1978. New York State Department of Transportation - Budget Bureau. Outlines funds allocated to the Department of Environmental Conservation, the Department of Social Services, the Department of Health, the Division of Military and Naval Affairs and the Department for proper management of the Love Canal situation.

4) Answers to Questions Raised by Homeowners Association in Memorandum of December 7, 1978 to Glenn Haugie, Deputy Director of Public Health and Love Canal Health Coordinator. Love Canal Homeowners' Association. The questions pertain to subject areas such as the existence and location of the Swales or old stream beds, the results of liver function and blood tests and the frequency of miscarriages. Future health data and the relocation of families are also discussed.

7) Characterization and Abatement of Ground Water Pollution from Love Canal Chemical Landfill. R. P. Leonard; P. H. Werthman; and R. C. Ziegler. Calspan Corporation, Report ND-6097-M-1 (August, 1977) This study was performed for the city of Niagara Falls. It is available only from the sponsor, if at all.

16) Facts on Toxic Wastes at Love Canal - Environmental Time Bomb. Love Canal Homeowners Association. Pamphlet discusses the history and present condition of Love Canal, as well as the hazardous health effects of the area and remedial work to rectify the situation.
Study was contracted by the United States Environmental Protection Agency.

Questions and answers for Governor Carey are included regarding topics such as construction procedures, the liability of Hooker Chemical and resale of homes.

19) Grant Agreement Providing Human Services for Qualified Residents of the Love Canal Area, City of Niagara Falls, Niagara County. New York State Department of Transportation.
Approval of the $200,000 request for aid proposed by William Broderick, President of the United Way of Niagara, on February 13, 1979.

Includes a discussion of maintaining homeowners insurance, banking/mortgage procedures and retainment of an attorney.

Includes statements regarding the Love Canal situation by residents of the area, Hooker Chemical Officials and various Government Administrators.

This legislation pertains to the establishment of a State fund in order that reclamation of hazardous waste disposal sites, by the State, is possible.

Discussion of the Love Canal conducted by Dr. Paigen, a cancer research scientist at Roswell Park Memorial Institute. Studies focus upon the health hazards of the area and their affect on miscarriages, crib deaths, birth defects, nervous breakdowns, asthma and urinary diseases. Remedial measures are suggested.

Declaration of Love Canal as "a public nuisance" and "a serious threat and danger". Conclusions and recommendations based upon investigation of the area are included.

38) LCA Draft Report, July 31, 1978. New York State Department of Transportation. A summary of the problems of, investigations into findings, conclusions, and recommendations for the Love Canal area are presented. Maps of the locale, as well as a listing of possible pollutants are included. Newspaper articles pertaining to the coverage of the event are appended.

39) Letter to Jack Watson - Secretary to the Cabinet and Assistant to the President for Intergovernmental Affairs. R. J. Morgado. Executive Department; State of New York, 1979. Provides a brief re-cap of the role of the Federal Government in the Love Canal situation and an appeal for further White House assistance for remedial construction and property acquisition.

These reports prepared by the On-Site representative are intended to inform interested Love Canal individuals of the latest developments. Each report publishes a running total of the number of families relocated on a permanent/temporary basis. The status of health and pollution research is reported as are current Love Canal Task Force operations.

Discussion of the history of Love Canal, demographic statistics, environmental sampling, epidemiologic studies, relocation of residents and environmental cleanup. Includes a chronological record of Love Canal events for the five-month period from April, 1978 to August, 1978, in addition to a supplement of New York State legislation pertaining to the Love Canal crisis.

A detailed account of the proposed construction in the Love Canal area.

Governor's Love Canal Inter-Agency Task Force.
Informational documents distributed to homes in the Love Canal area to assure that residents are aware of current developments.

Governor's Love Canal Inter-Agency Task Force.
Presents the history of Love Canal prior to the formation of the Task Force, the creation of the organization and its future plans for the area.

Discussion of relocation, United Way assistance and the fencing of the Love Canal area.

The results of Love Canal studies conducted by the Department of Health Environmental and Epidemiological Studies are discussed. Among those tests conducted are soil sampling, storm sewer evaluation, liver and urine analysis in addition to an overall review of medical records.

This document presents the emergency evacuation plan for the Love Canal area, should chemical mishaps occur during remedial construction.

55) Personal Account of Life in the Love Canal, Niagara Falls, New York - March 28, 1979. A. Hillis. Ms. Hillis provides a very realistic account of her 14-year residence in the Love Canal area and the daily obstacles encountered. She relates the history of her 10-year old son's health problems, as well as the illnesses developed by acquaintances.

58) Project Proposal: Contaminant Movement - Love Canal January 1, 1979. Governor's Love Canal Inter-Agency Task Force. Discusses the extraction of soil samples from presumably contaminated areas near the Love Canal. The objective and method of sampling are specified.

59) Project Title: "Love Canal CD Emergency Needs Grants" 1/13/81. [Grant application under Federal program - Community Development Emergency Needs]

60) Relocation Unit. Governor's Love Canal Inter-Agency Task Force. Lists the responsibilities of the owner with regards to his home upon relocation.

63) A Report to William Hennessy, Commissioner, New York State Department of Transportation, February, 13, 1979. W. Broderick. Mr. Broderick, President of the United Way of Niagara, requests $200,000 for aid to Love Canal residents. The purpose of such funding, as well as the intentions for and restrictions surrounding the use of the aid are stated.
This document is the formal appeal for acceptance of Love Canal Project applications by the Federal Disaster Assistance Administration.

Consent form permitting department of Transportation of New York State to board windows and doors of homes upon vacation of Love Canal residents.

Discussion of the establishment of the Erie/Niagara Task Force and the need to extend this organization State-wide. As Commissioner of the New York State Department of Environmental Conservation, Dr. Flacke provides an outline of programs sponsored by his organization. Included are suggestions regarding the role of the Federal Government in situations such as that of Love Canal.

Delineates the safety plan implemented at Love Canal during remedial work such as provisions for and hygiene of workers and contingency plans.

Pledges State aid to Love Canal residents and proposes to apply for Federal funding, to assist in the situation. The establishment of the Governor's Love Canal Interagency Task Force is noted.

70) Testimony Before the House of Representatives Subcommittee on Oversight and Investigation. L. Gibbs.
Discussion of the general problems encountered in the Love Canal area. Ms. Gibbs cites several specific examples and stresses the role of the Love Canal Homeowners Association in the crisis.
Mr. Hennessy, Commissioner of Transportation and Chairman of the Governor's Task Force on Love Canal, questions the adequacy of present legislation regarding hazardous waste disposal. A detailed account of New York State Governor Hugh Carey's actions in the situation is included, such as familial relocation and environmental health studies.

Discussion of the lack of effective legislation dealing with hazardous waste disposal. Dr. Axelrod, Commissioner, New York State Department of Health, details the studies, both medical and environmental, conducted by the State. The possibility of future "Love Canal" occurrences is raised and the need for adequate federal guidelines is stressed.

Mr. Cuddy, Coordinator of the Love Canal Task Force presents a brief synopsis of action implemented by various government agencies and evaluates the adequacy of their response to the hazardous waste emergency.

In light of the recent developments in the Love Canal area, Ms. Gibbs, President of the Love Canal Homeowners Association, evaluates the action of federal, state and local authorities with respect to elimination of the hazardous wastes disposed in the vicinity.

Discusses the composition of toxic materials, their affect on public health and the environment, as well as alternate solutions to the problem.

Toxic Substance Control Act Oversight: Hearings before the Subcommittee on Environmental Pollution of the Committee on Environmental Pollution of the Committee on Environment and Public Works, 1978.

Mr. Matthews, Director of Utilities, guarantees the quality of local drinking water. The results of various analyses, conducted by the Niagara Falls Water Quality Laboratory and the New York State Department of Health are cited.

The End
