V. SIMPLE WORD SEARCH

Select the title(s) that you wish to search by using the checkboxes on the left side of the screen. You may run a comprehensive search of all titles by clicking **Select All**. **YOU MUST MAKE A SELECTION PRIOR TO RUNNING YOUR SEARCH.** If you fail to do so, the following message will appear:

“There were no results matching your search criteria.”

The textbox can accommodate 30 characters. For searches with more than 30 characters, users should choose the advanced search option.

Searching the singular form of a word will also retrieve the plural of that search term.

A space between search terms is interchangeable with the AND connector. Only documents that contain all terms will appear on the results list.

For more precise search results, it is recommended that phrases be enclosed with quotation marks.

The results list is ordered alphabetically by document name in ascending order and displays 10 hits on each screen. To reverse the order, click on “Document Name.”

The date in the Document Name is the date the print page was removed from the NYCRR. To further clarify, the results of any successful search in the database will list documents in the following format:

TitleX-TitleName-YYYY-MM.pdf

For example, a result with the name **Title3-Banking-1990-08.pdf** will include all Title 3 pages *removed* from the NYCRR in August of 1990.

Multiple results screens are indicated by the numbered boxes below the document name list.

The user may move from screen to screen by clicking the numbered boxes below the results list. You may navigate in either direction.

To see more results, click on the box after 10 containing the ellipses.

Search results may be narrowed by using the **Search by Date** field. Date should be entered using the proper format.

Simple Search by Keyword - Example One

Find: occurrences of the word motorcycle in Titles 11 and 15

Using the checkboxes, select Title 11 - Insurance and Title 15 - Motor Vehicles

In the **Keyword search** textbox type: *motorcycle*

Click **Search**

The results list is displayed.

Results: 283

You may browse the results by clicking on the numbered boxes in any order.

Boxes with ellipses will allow the user to see the next/previous 10 screens.

The user will see 2 tabs below the document names list.

Download Options: allows user to view select documents in pdf format

Preview Document: allows user to view select documents in preview mode through a browser

Remember:

The results of any successful search in the database will list documents in the following format:

TitleX-TitleName-YYYY-MM.pdf

For example, a result with the name **Title11-Insurance-1975-11.pdf** will include all Title 11 pages *removed* from the NYCRR in November of 1975.
