The Mark Chowaniec World Music Collection

A Finding List Arranged by HRAF-Murdock Number

Compiled by Matthew Sheehy.

Print version, with name index: **ML156.4.F6S4**

[Finding List](#) | [Index by HRAF-Murdock Number](#)

This is a finding list for the Marc Chowaniec World Music Collection. The collection consists of 802 cassettes, 519 records, and 19 videos of musical performances from all over the world. The recordings include commercially produced, dubbed recordings, field recordings, and recorded radio programs. The collection reflects a wide variety of music, both traditional and popular.

This list is arranged by **HRAF-Murdock** number, then by performer and *title*.

Much of this material is in alphabets other than Latin and therefore difficult to reproduce. An attempt was made to transliterate information from the containers for only a small portion of the collection. Everything else that is written in characters that could not be reproduced has entries primarily for identification purposes, i.e., on T 127, the only Latin characters are 01. There is a lack of authority in names and titles, acknowledged misspellings, and a lack of diacritical markings. Illegible writing is omitted so some items are represented by little more than a date or record number.

For field or dubbed recordings, Chowaniec is listed as the publisher.

There are **see** and **see also** references under many **HRAF-Murdock** numbers that indicate items that may represent the music of more than one culture. A note of additional HRAF numbers is included in the item record as well.

George Peter Murdock's *Outline of World Cultures*, 5th edition, 1975, is the culture index.

The collection is arranged in numerical order, separated by medium.

Sigla:

R = Records

T = Cassette tapes

V = Video tapes
