Finnegans Wake, 121.32-36
INTRODUCTION

To praise the scope of the collection of James Joyce manuscripts now part of the Lockwood Memorial Library of the University of Buffalo would certainly be redundant, since the reader need only turn to the catalogue that follows to be immediately convinced of the immeasurable importance of this collection. Even a brief look at the table of contents will show how much there is. But although one is quickly impressed by the size of the collection, its qualitative importance cannot be comprehended so readily. The import of the Buffalo manuscripts has still to be measured and digested to be fully appreciated—a task which Joyce scholars have been working on and will continue to concern themselves with for many years.

The manuscripts which comprise the Joyce Collection of the University of Buffalo were acquired from three different sources. The initial acquisition, which arrived in Buffalo in the autumn of 1950, was purchased at the exposition of Joyce materials of the Librairie La Hune in Paris through the gift of Margaretta F. Wickser, to whose husband, the late Philip J. Wickser, the collection was dedicated as a memorial. The La Hune materials,1 consisting of manuscripts, letters, paintings, personal effects, and the personal library of James Joyce, were originally left by Joyce in Paris on his flight from that city in the winter of 1939 and cared for during the German occupation by Joyce's friend Paul Léon and his brother-in-law Alexander Ponzowski, both of whom died at the hands of the Nazis.

The second major portion of the Buffalo Joyce Collection, consisting of manuscripts, letters, and books, was acquired through the generosity of an anonymous benefactor and friend of the University in the winter of 1959 from Miss Sylvia Beach, the publisher of the first edition of Ulysses.

A third portion of the Buffalo Joyce Collection, consisting of letters, proofs, and errata, was donated in May of 1951 and December of 1959 by B. W. Huebsch, the well-known publisher now connected with the Viking Press.

1Unfortunately, three items were lost in transit from Paris to Buffalo: La Hune items 254, 305, 307, a manuscript of "The Scylla & Charybdis" episode of Ulysses, and proofs for "From a Banned Writer to a Banned Singer" and "De Honni-soit a mal-y-chance."
I have grouped the manuscripts of the Buffalo Joyce Collection (workbooks, notebooks, sketches, schemas, notes, early and late drafts, fair copies, typescripts, galley proofs, page proofs, errata, translations, and letters) into ten major categories: "Epiphanies," "A Portrait of the Artist as a Young Man," "Exiles," "Verses," "Ulysses," "Finnegans Wake," "Criticism," "Notebooks," "Miscellaneous Manuscripts," and "Letters from Joyce." In general, the items in the collection fit naturally into one of the ten categories, but a few items could be placed in more than one category, e.g., MS. VIII. A. 5., one of the "Zurich Notebooks," in which many entries occur which were eventually used in the composition of Ulysses. Although this manuscript could have been catalogued under the "Ulysses" category, I came to the conclusion that it was a closer relative to the "Zurich Notebooks" family. Such borderline cases were surprisingly few, when we consider how interwoven and interdependent all of Joyce's works are. In general, I have let common sense be my guide, and have refrained from lengthy justifications which, I feel, would only have added needless notes, footnotes, and complications to an already bulky study.

I have described each manuscript by 1) giving its physical description; 2) briefly describing and identifying its contents; 3) noting its date of composition, or if no date is given (a problem in most manuscripts) basing my dating on internal evidence (addresses, marks of stationers, handwriting, or comparisons of entries with published texts in periodicals and books); 4) indicating its publication (when appropriate); 5) noting other markings of importance (such as Joyce's extensive use of colored crayons). Whenever possible I have used a standard format in the description of a manuscript, presenting the pertinent facts under the following categories: title, collation, pagination, contents, other markings, dating, publication, and notes. The absence of a category from the description of a MS. item means that it is either inapplicable or that the answer is negative. Also I have not hesitated to depart from this format when a manuscript could be better or more compactly described in another way.

Describing the manuscripts and letters, which is the task of a cataloguer, has, of course, imposed certain limits on my work. Therefore I have made no attempt to edit the Buffalo Joyce materials or to show their full significance, but have restricted myself to presenting only that information about a manuscript which points to its dating, its identity, or its obvious use by Joyce.
Because Joyce dated very few of his manuscripts, I have exercised considerable effort in attempting to date the items catalogued, a fascinating task but an extremely difficult one, since concise dating would entail editing the manuscripts rather than cataloguing them. Thus, I have had to be satisfied with showing the rough boundary lines of dating, rather than going on to pinpoint the exact date of each manuscript. The most difficult of all the manuscripts to date were the "Finnegans Wake Workbooks." Most of my speculation in dating these notebooks is based on internal evidence, on finding the first appearance of a phrase or word taken from a workbook in the published portions of "Work in Progress." In my dating of the Ulysses manuscripts, I have relied chiefly on references in Joyce's letters to the composition of the episodes of this novel. All "proposed dates" are indicated by "ca."

In giving the publication of manuscripts, I have listed only complete publication of an item. I have not indicated partial publication or excerpts from the Buffalo manuscripts quoted by those critics who have already made use of the Buffalo materials (e.g., although David Hayman in Joyce et Mallarmé quotes two pages from MS. VIII. B., "Quaderno di James Joyce," I have considered the manuscripts as being "unpublished"). The "Notes" sections contain that information which could not conveniently be included in another place. These notes have been kept to a minimum. Usually, the first "Note" of a category is the most detailed and should be consulted when examining other items in that category (e.g., when working with one of the "Finnegans Wake Holograph Workbooks," MSS. VI. B. 1.-50., the reader is advised to consult the "Notes" of MS. VI. B. 1.).

The standard format adopted for the description of the manuscripts is greatly modified in the listing of Joyce's letters, MSS. X. A.-K., which are catalogued in the following manner: The letters to each recipient are grouped separately and arranged in chronological order. The salutation and opening of each letter are given for the purpose of identification; but the opening phrase is in no way intended to summarize the letter or to indicate its subject matter. When a letter or postcard is dated, the date is given in standard form: day, month, year. A date in square brackets is based upon definite internal evidence. A well-educated guess is indicated by "ca." and square brackets. When a dating is based on a hunch, it is followed by a question mark and enclosed in square brackets. A few undated letters are labeled "not dated" and are filed after the dated letters. The sender's (Joyce's) address is cited in the same manner as the date whenever possible. Published letters are identified as such.

See "Notes" of MS. VI. B. 1. for a fuller discussion of their dating.
Although the title of this work indicates that what follows is a catalogue of James Joyce's manuscripts and letters only, it may be useful to clarify this point a little further by briefly listing the Joyce material which is not included. The James Joyce Collection of the University of Buffalo consists of much more than Joyce's manuscripts and letters; parts of the collection, not catalogued here, are letters to Joyce, letters about Joyce, paintings, photographs, press clippings, Joyce's personal Paris library, other books and periodicals in which Joyce's works appeared, notebooks and drawings of his daughter Lucia Joyce, and personal items and memorabilia.

IV

It is the purpose of this catalogue and the hope of this compiler that the present study will, by ordering and describing the manuscripts at Buffalo, underline the scope of the collection, make the materials more readily available, and facilitate the work of Joyce scholars. The Joyce Collection not only offers critics much unpublished and unsifted material for the explication and examination of Joyce's individual works, but also offers the raw material necessary for a detailed exploration of Joyce's creative process. The need for such an exploration, especially in regard to Finnegans Wake, is indicated since much spade work still needs to be done before that work can be fully understood and criticised. The whole Buffalo Joyce Collection, dealing with Joyce's life and works from 1900 through 1940, lends itself toward this end; not only the manuscripts that deal directly with Finnegans Wake but also those pertaining to other works, since to understand the last work of Joyce one must first understand Joyce's earlier methods and works.

For example, it becomes apparent that the method of creation of Finnegans Wake does not differ greatly from that of Ulysses. Basically, in both Ulysses and Finnegans Wake, Joyce's process of composition is one of constant addition and expansion. Joyce's method is neither new nor unique. Aristotle speaks of such a method in his Poetics when he says that a writer "should first simplify and reduce

---

5 "The early drafts of Finnegans Wake are written in approximately standard English. They are amazingly dull, discontinuous, and read as distressingly as any dozen pages of A Skeleton Key. Instead of being what Lamb calls "beautiful bare narratives," these early drafts are meagre and embryonic. They are little more than framework, rough and spare (Joyce hardly ever blotted a framework), and, strangely enough, they are more obscure than the
[his story] to universal form, before proceeding to lengthen it out by the insertion of episodes.” This is Joyce’s method. Yet he lengthens, expands, and adds to the levels of meaning of his work not only by the insertion of episodes but also, and perhaps chiefly, by the insertion of additional ideas, details, phrases, and words, words, words. What is unique about Joyce’s method of composition is the amount of expansion which takes place between the early core and the final draft, and more specifically, the number of phrases and words which are woven into, over, around, on top of, and in between the framework. As unique and even more startling is Joyce’s source for these additions. The “Finnegans Wake Workbooks” (MSS. VI. A., B., C., D.) are probably the strangest manuscripts in existence—even for so strange a book as Finnegans Wake. A first examination reveals no apparent organization to them; no method, only madness. Yet it was from these seemingly unorganized source books, consisting almost exclusively of words and short phrases, which in most instances seem to have no logical connection with each other or with any specific section of “Work in Progress,” that Joyce drew his myriad additions, without hesitation and with what would appear to be no discrimination. Quite obviously the appearance of disorganization and blind selection cannot be a true picture. Competent critics have shown us that Finnegans Wake is not a chaotic work but rather a tightly organized and most laboriously and carefully constructed, convoluted whole. Therefore, the apparent disorder and lack of organization of these workbooks is a false impression. Where the reader of the workbooks stumbles and bombinates through what seems to be utter blackness, Joyce danced and skipped with ease. What to us seems chaos was neatness and method to Joyce. To us, Joyce’s filing cabinet seems unreliable and unusable, but in these notebooks Joyce could locate an idea, a phrase, or even a word with speed and accuracy. We can get a glimmer of the method in his use of colored crayons, by which he indicated those phrases and words he had pulled out of the workbooks and used in the drafts of Finnegans Wake. We can see another part of his method in the eighteen VI. C. notebooks in which Joyce had his amanuensis copy

published version of Finnegans Wake. Apparently, there were two stages in the composition of Finnegans Wake. First Joyce made his strong, unbeautiful framework; then gradually he gave it beauty, color, and significance by turning it into his peculiar language. . . .” Glasheen, A Census of Finnegans Wake, p. xiii.

6See Letters of James Joyce, p. 276, letter to Harriet Shaw Weaver, 2 December 1928, “. . . Nevertheless I had them retype in legal size, twice or three times this, with triple spacing, section three of Shaun, and this, when it has been read to me by three or four people, I shall try to memorise as to pages, etc. (there are nearly a hundred) and so hope to be able to find the places where I can insert from the twenty notebooks which I have filled up since I wrote this section.”
those portions of his workbooks which were not crossed through with colored crayon and therefore not used. Yet we are still amazed, and perhaps still not entirely convinced of the order and logic of Joyce’s method. This, I believe, is in part caused by our amazement and puzzlement with *Finnegans Wake* itself. Had these workbooks been intended for use in *Ulysses*, a work which we can more easily understand, we would more readily accept and even comprehend Joyce’s filing cabinet. And it is in this connection that we can appreciate the relationship of the various portions of the Buffalo Joyce Collection. For although the “*Finnegans Wake Workbooks*” are undeniably for use in *Finnegans Wake*, they can be compared to a number of the *Ulysses* notebooks which are part of the Buffalo Collection.

The resemblance between three of the “*Ulysses Notebooks*” (MSS. V. A. 2., V. A. 4., VIII. A. 5.) and the “*Finnegans Wake Workbooks*” is startling. Here too Joyce has jotted down not only ideas and early drafts of portions of *Ulysses*, but also phrases and words. Here too Joyce has used colored crayons to indicate when he has pulled a phrase or a word out of the filing cabinet and inserted it into a draft of the novel. It now becomes apparent that not only is Joyce’s overall method of composition that of expansion and addition, the same in *Ulysses* and *Finnegans Wake*, but we can also see that his use of workbooks was not an innovation created to fit the vastness and complexity of *Finnegans Wake*. On the contrary, the same use of workbooks seems to have been part of the *Entstehungsgeschichte* of *Ulysses*.

Let the above brief example serve merely as a hint of the value of the manuscripts in the Buffalo Collection. A full and true appreciation of the collection will come to light only through its continued use by Joyce scholars. With this aim in mind, I have undertaken the task of briefly charting and laying out for inspection a portion of the Joycean labyrinth, since it is hoped that these manuscripts, when examined in detail, will offer a key to the better understanding of the “hides and hints and misses in prints” (FW 20.11) in the writings of the most controversial figure of twentieth-century literature.

V

I gratefully acknowledge the guidance of Professor Oscar A. Silverman, Director of Libraries and Chairman of the Department of English of the University of Buffalo, at whose suggestion I undertook the cataloguing of the Joyce materials and without whose valuable and generous assistance this book could never have been completed. I also wish to thank the late Charles D. Abbott, Curator of Special Collections and Director Emeritus of Libraries, and the staff of the
Lockwood Memorial Library's Manuscript Collection, particularly Miss Anna A. Russell, Assistant Curator, for their kind cooperation. I am deeply indebted to Professor Thomas E. Connolly, also of the University of Buffalo, who gave unstintingly of his encouragement, experience, and time. I owe much to my beautiful wife for her aid with the Greek notebooks, her proofreading, and her suprawifely patience. For permission to quote from James Joyce's unpublished manuscripts and letters, I am indebted to Miss Harriet Weaver, Mr. Lionel Munro, and Miss Anne Munro-Kerr of the Society of Authors who have also allowed me to print in full a number of hitherto unpublished items.

Because of the size of the Buffalo Joyce manuscript collection (approximately 450 items, 20,000 written pages), the varying degrees of illegibility of Joyce's handwriting, the limited amount of time I was able to devote to this work (roughly four years), and the natural limitations of eyes and memory, I have without doubt made errors, both of omission and commission, in this catalogue. I hope that I have been able to keep errors to a minimum and that those which remain are not of a grave nature. In any case, mistakes, both of judgment and eyesight, are solely my responsibility, and the assistance acknowledged above should in no way be taken as an attempt to shift or share the guilt. I shall, of course, welcome hearing from those sharp-eyed readers who have spotted any errors, so that I may incorporate these corrections into a second edition of this catalogue should such a reprinting be called for.

¹Slocum & Cahoon, item E. 3. a.; Sylvia Beach Catalogue, item 10.
²A letter from Joyce to Sylvia Beach on the occasion of the gift of this MS. was inserted in this MS. See MS. X. B. 111.
³The Cornell Joyce Collection has a typescript of this MS. made by Stanislaus Joyce. See Robert Scholes, item 34.
Probably these leaves are from the third American printing of January 1918, sent to B. W. Huebsch with a list of requested changes enclosed (see MS. II. B. 2.) by Miss Weaver of the Egoist Press, London, printing instructions for the Egoist Press edition of the spring of 1921 which used American sheets imported from B. W. Huebsch.4

Other Markings: Pencil note on first sheet, in hand of Miss Weaver: "Send these proofs to B. W. Huebsch. Rush.''

4See Slocum & Cahoon, p. 20.
5The first English edition (London: The Egoist Ltd., 1917) used the sheets of the first American edition.
**II. C. 2. A PORTRAIT OF THE ARTIST AS A YOUNG MAN: ERRATA**

Loose Sheets, typewritten, double-spaced, typed with black ribbon.

Title: "CORRECTIONS. A portrait of the Artist as a Young Man. /

Collation: 16 sheets of typing paper, versos blank, held together by gold-colored paper fastener on top left corner. 26 × 20.1 cm.

Contents: Errata for A Portrait, based on the first edition (New York: B. W. Huebsch, 1916), made by Joyce, sent to J. B. Pinker to be typed and forwarded to B. W. Huebsch. It would seem that Pinker sent the Joyce MS. of errata to John Quinn, and the typescript copy of the errata to Huebsch. The manuscript described here is the typescript copy. 364 corrections; 54 of these corrections also listed in MS. II. C. 1.

Other Markings: Typed subscript: “JAMES JOYCE Seefeldstrasse 73III Zurich VIII.”

Dating: “May 7-1917” stamped in purple on verso of p. 16, probably by B. W. Huebsch.

6 For a listing of Joyce's corrections (taken from MSS. II. C. 1 and 2) which have not been made in the American editions of A Portrait see my article, "James Joyce's Errata for American Editions of A Portrait of the Artist," in Joyce's Portrait: Criticisms and Critiques, ed. Connolly, pp. 318-28.  
7 See n. 5.  
8 See Slocum & Cahoon, item E. 3. d. The holograph MS. of these corrections can be found in the Yale University Library. A comparison of the two MSS. shows that the typist made three errors in the typescript copy.

of Joyce's Zurich friends.\textsuperscript{5} Dating and place of translation are given as "Zurich 1916." It seems strange that Joyce should have included this translation in the manuscript, placing it, as if of equal importance, between the tenth and twelfth poems, making it the eleventh.

ULYSSES
*V. A. 1. a. ULYSSES HOLOGRAPH MSS.: SCHEMA

Loose Sheets, Joyce's hand in ink (one pencil addition).

Title: No title.

Collation: 2 large sheets of graph paper: 1st sheet written on one side only; 2nd sheet both sides written on, but writing on reverse side crossed through with pencil since Joyce made a mistake (mixing up Episode 7 with Episode 8), therefore started schema over again on other side of sheet. 38.6 × 29.7 cm.

Contents: Schema in Italian of the 18 episodes of *Ulysses*. (See end papers of this catalogue.)

Other Markings: Some underlinings in orange crayon, and circlings in blue crayon. (Note in pencil on verso of 2nd sheet by Sylvia Beach, "Manuscript of plan of Ulysses given by Joyce to SB.")

Dating: ca. 1920.¹

Notes: The schemas printed in Stuart Gilbert's *James Joyce's Ulysses* (New York: Vintage Books, 1955), p. 30, and in Marvin Magalaner (ed.), *A James Joyce Miscellany: Second Series*, between pp. 48-49, differ somewhat from this MS. For example, not only do some of the individual entries within the categories differ, but the MS. also has an additional category, "Senso (significato)," which is not part of either the Stuart Gilbert or the Croessmann schema. The MS. does not have the "scene" category.

¹MS. possibly is the schema which Joyce lent to Carlo Linati: "I think... it would be better to send you a sort of summary-key-skeleton-scheme (for personal use only)... Heavens, what disgusting sheets of paper I have chosen for the schema—really worthy of the horrible book itself! Please send them back to me for the honour of the family!" *Letters of James Joyce*, pp. 146-47, letter to Carlo Linati, September 21, 1920.

*V. A. 1. b. ULYSSES HOLOGRAPH MSS.: SCHEMA

Scroll, typescript (typed with purple ribbon).

Title: "U L Y S S E S"

Collation: 4 sheets of unruled paper (each 26.8 cm. in width) pasted together to form a scroll; written on one side only. MS. measures 20.7 cm. (8 3/16 inches) vertically × approx. 102 cm. (40 inches)
horizontally. MS. attached to back end papers of first edition of *Ulysses*, No. 2 of 100 copies of limited edition on Dutch handmade paper, with presentation, Joyce's hand in ink: "To Sylvia Beach in token of gratitude James Joyce Paris 13 February 1922."

**Contents:** Schema of the 18 episodes of *Ulysses*.

**Other Markings:** Presentation, right corner of scroll, Joyce's hand in ink: "Given to Sylvia Beach 2 February 1922 Paris James Joyce."

**Dating:** 1922.

**Publication:** Magalaner (ed.), *A James Joyce Miscellany: Second Series*, between pp. 48-49.

**Notes:** This schema is more complete than the one printed in Stuart Gilbert's *James Joyce's Ulysses*. The MS. contains an additional section which gives the "Correspondences" between the characters in Joyce's *Ulysses* and Homer's *Odyssey*.

---

**V. A. 2. ULYSSES HOLOGRAPH MSS.: NOTES FOR THE EPISODES**

**Notebook,** Joyce's hand in ink and pencil. Insertions and additions in ink in margins, Joyce's hand.

**Title:** No title.

**Collation:** No covers (first and last leaves of MS. are in very bad condition). 20 leaves of ruled paper, stitched: 29 pages written on, 11 pages blank. 22.5 × 16.9 cm.

**Contents:** Notes for the following episodes of *Ulysses*: Hades, Aeolus, Lestrygonians, Scylla and Charybdis, Wandering Rocks, Sirens, Cyclops, Nausikaa, Oxen of the Sun, Circe, Eumeus, Ithaca, Penelope. Margins used for insertions and additions.

---

2 The schema in the Croessmann Collection of Southern Illinois University (reproduced in *A James Joyce Miscellany: Second Series*) is almost identical with MS. V. A. 1. b. Dr. Croessmann's schema "measures approximately 40 inches horizontally by 7 3/16 inches vertically, and consists of five typed sheets, from left to right 8 1/2, 8 1/4, 8 1/8, 8, and 8 1/2 inches wide respectively, pasted together." (H. K. Croessmann, "Joyce, Gorman, and the Schema of *Ulysses*," in Magalaner [ed.], *A James Joyce Miscellany: Second Series*, p. 10.) In the "Beach" schema (Sylvia Beach Catalogue, item 1b.) a number of typing errors occur which do not appear in the "Croessmann" schema, e.g., "Buck Malligan," "Nenelaus"; in the "Croessmann" schema "Cocklepicker" instead of "Cocklepicker" appears.

3 Slocum & Cahoon, item E. 5. b. i.; La Hune, item 252.
Other Markings: Most of the entries in MS. crossed through with orange, red, blue, or green crayon. Because of the unusually heavy use of colored crayons, the contents of this notebook are extremely difficult to decipher.

Dating: ca. 1914-21 (probably 1914-19).

Notes: A most interesting manuscript, not an early draft but rather a collection of ideas, themes, phrases, and words for possible use in Ulysses. See MSS. V. A. 4. and VIII. A. 5. which are also workbooks rather than drafts. All three MSS. may be profitably compared with the "Finnegans Wake Workbooks."

The following is a brief sampling of the many phrases (crossed through with colored crayon) which Joyce extracted from this notebook and used in Ulysses:

```
"adultress all his own fault serve
him right" (green) RH 765.33 p. [3]
"opal & pearl unlucky" (red) RH 747.22 p. [5]
"in toto" (blue) RH 618.31 p. [8]
"Duel with cavalry sabres" (red) RH 583.14 p. [10]
"nupital mass & papal blessing"
(green) RH 321.39, 42 p. [15]
"unfurnished apartments" (green) RH 222.32, 230.39 p. [19]
"Pullman car hearse" (red) RH 97.6-8 p. [21]
"in a trice" (red) RH 396.21 p. [23]
"converse domain of relations"
(green) RH 651.36-37 p. [29]
"Solomon understood language of animals" (red) RH 281.14 p. [33]
"fork chained to table" (red) RH 155.22 p. [35]
"tilbury" (red) RH 399.9 p. [40]
"bellhanger" (red) RH 472.19 p. [40]
```

P. [24] contains a paragraph of text, rather than notes. This text is crossed through with green crayon; it appears, with very few changes, in Ulysses (RH 301.22–302.24). This paragraph is part of "Cyclops" MS. V. A. 9., but is not included in the "Cyclops" MSS. V. A. 6, 7, 8.

Dating: October 1917—January 1918, during Joyce’s brief stay in Locarno.

Publication: This MS. and the other “Ulysses Holograph MSS.” are unpublished. Final drafts published as part of Ulysses (Paris: Shakespeare and Company, 1922). (For publications of sections of Ulysses, prior to the first edition of 1922, in The Little Review and The Egoist, see Slocum & Cahoon, pp. 97-98).

Notes: The published version follows this draft closely; correspondence in texts can be seen paragraph by paragraph. Therefore, MS. seems to be a late rather than an early draft.

MS. begins, “Ineluctable modality of the visible: it must be that at least if no more . . .’’ Note in top margin, “seasedge Cristhaven strand, was I there?”

MS. ends on p. 18, “. . . passing to silently, on towards Dublin, silently. upstream, silently moving a silent ship.”

P. [19] bears the number “8” in margin; the seven lines on that page are an insert for p. 15 of MS. (RH 49.8-12).

*V. A. 4. ULYSSES HOLOGRAPH MSS.: SCYLLA AND CHARYBDIS

Notebook, Joyce’s hand in ink.

Title: “Shakespeare Dates” in ink on white paper label, scalloped edges, pasted on front cover.

5La Hune, item 253.
Collation: Blue paper covers. Inside of front cover written on. 12 leaves of ruled paper, stapled: all pages written on. 21.9 x 17.4 cm.

Contents: Notes on Shakespeare for use in the "Scylla and Charybdis" (Episode IX, RH 182-215). Each of the 24 pages has been headed chronologically with a year in Shakespeare's life—1593 through 1616—underlined with orange crayon. Notes pertaining to each year follow below these dates; no notes for 1612.

Other Markings: None. (No entries crossed through with colored crayon.)

Dating: ca. 1916-18.

Notes: Compare this MS. with MSS. V. A. 2. and VIII. A. 5. The following is a brief sampling of the use Joyce made of the entries in this notebook in Ulysses:

- "1615 . . . 10 March: WS buys house in Ireland Yard (London) £140" RH 201.18-19 p. [23]

V. A. 5. ULYSSES HOLOGRAPH MSS.: SIRENS

Notebook, Joyce's hand in ink. Some corrections; numerous insertions and additions in ink and pencil on versos and in margins of rectos (except verso of eleventh leaf, numbered p. 33, on which text is concluded). Joyce's hand.

Title: "James Joyce" written in ink, in hand not author's, on white paper label, scalloped edges, pasted on front cover.

Slocum & Cahoon, item E. 5. b. iv.; La Hune, item 255.
Collation: Blue paper covers. 12 leaves of unruled paper, stapled: 19 pages written on, 5 pages blank. 21.9 × 17.7 cm.

Pagination: Rectos numbered 21-32 in margins in pencil, Joyce's hand; verso of eleventh leaf numbered p. 33.

Contents: Draft of approximately last half of "Sirens" (Episode XI, RH 272.31–286). Versos and wide margins of rectos used for insertions and additions.

Other Markings: Colored crayon markings: verso of twelfth leaf crossed through with blue crayon; a few words in margins of pp. 21, 22, 23, 26, 27, 28, crossed through with blue crayon.

Notes: The published versions follow this draft closely; correspondence in texts can be seen paragraph by paragraph. Additions, insertions, and corrections in published texts consist mostly of words and phrases, although a few passages were also added, e.g., the "Tap. Tap. Tap." of the "unseeing stripling," piano tuner. Since the MS. consists of only the last half of the "Sirens" episode (pages numbered 21–33), it can be assumed that another MS. of the first half of the episode existed (pages numbered 1-20).

MS. begins, "Sang 'Twas Rank and Fame. Mr Bloom listened while Richie Goulding told him, Mr Bloom, -abettt- of the night . . . ."

MS. ends on p. 33, "... Let my epitaph be written. Kraaaa. I have. Prrprrprrppffff. Done."

Verso of twelfth leaf has insert of eight lines.

margin of pp. [1, 2] crossed through with blue crayon. Foolscap [b]: pp. [1, 2, 4] crossed through with red crayon; words in margin of pp. [2, 3] crossed through with blue crayon.

Dating: 1919.

Notes: The published texts vary greatly from this early draft. MS. contains some passages not found in the published texts, while the published texts contain passages not in MS. MS. differs also in the order of incidents. It is not a complete version of the episode; probably other foolscaps belonging to this draft existed.

Some notable differences between draft and published version pointing to an early dating of this MS. are that the “hero” of the episode, the citizen, is called Cusack,8 and that professor Hugh MacHugh and young Dedalus are present.

a. The text on foolscap [a] begins, “the nephew, came to stop with he and my brave Bloom put in for giving him lessons in German . . .”

The text ends, “. . . I don’t see the advantage if his venom kills them, says Joe. —Scratch you her arse quicker, says Ned.”

b. The text on foolscap [b] begins, “Cusack read on: —A distinguished gathering assembled in Manchester yesterday to do honour to a ruler of Africa . . .”

The text ends, “. . . —Ay, says Lenehan, That explains the milk in the cocoanut and the absence of hair on the animal’s chest. Terry brought the boose —Anyway, says Ned. The young chap”

8The Cornell Joyce Collection contains a letter to Joyce from the Anglo-French Review, dated “23 juin 1919,” the back of which Joyce has used to make notes for the “Cyclops” episode (Robert Scholes, item 55). Among the names listed in these notes are those of Citizen (Michael) Cusack and Stephen Dedalus.
Notes: A summary of the contents:

2) Insert in ink for a draft of "Cyclops" episode, probably for a later draft than MS. V. A. 6. (The paragraph of which this insert is a part does not appear in MS. V. A. 6.—probably insert for MS. V. A. 8., p. [44].)

   Insert begins, "suffered under rump . . . ."

   Insert ends, "... he shall come to drudge" (RH 323.34-38).

*V. A. 8. ULYSSES HOLOGRAPH MSS.: CYCLOPS

Notebook, Joyce's hand in ink and pencil. Many corrections; numerous insertions and additions in ink and pencil on versos and in margins of rectos, Joyce's hand.

Title: No title.

Collation: Blue paper covers. Inside of front cover written on. 24 leaves of graph paper, stapled: 38 pages written on, 10 pages blank. 21.6 x 17.5 cm.

Pagination: Rectos numbered in margins in pencil, Joyce's hand, 1-15, 17-25 (first two rectos also numbered in blue crayon). A mistake in numbering occurs on the recto of the 16th leaf, which is incorrectly numbered "17," skipping the number 16; hence, leaves 16-24 are numbered incorrectly.

Contents: Draft of "Cyclops" (Episode XII, RH 287-339). Versos, wide margins of first 19 rectos, and rectos of leaves 20-24 used for insertions and additions. (Inserts on versos of leaves 18-22 and pp. 21-25 are numbered in blue crayon.)

Other Markings: "J.J." enclosed in an oval stamped in black on white paper label, scalloped edges, pasted on front cover. Most entries crossed through with orange or blue crayon.

 Dating: 1919.

Notes: The published texts vary from this early draft. It is a later draft than MS. V. A. 6. This MS. contains some passages not found in the published texts, whereas the published texts contain passages not in MS. The MS. also differs in the order of incidents.

MS. ends on p. 20, "... at an angle of forty-five degrees over Hogan's Donohoe's in Little Green Street like a shot off a shovel."

Dating: End of 1919.11

Notes: This is part of a late draft (later than MSS. V. A. 6. or 8.) Correspondence in texts can be clearly seen, but many new additions in text have been inserted between this draft and the final published text of Ulysses.
MS. begins, "A posse of Dublin Metropolitan police superintended by the Chief Commissioner in person . . . ."
MS. ends, "... since the revolution of Rienzi, being removed by his medical adviser in attendance, Dr. Pippi."

10See MS. VI. C. 7., pp. [227-28], (which is a copy of MS. VI. D. 4.) for another but fuller list of significant dates in Bloom's life.
11Text of this MS. not included in The Little Review, VI (November 1919), 50. Probably these pages were prepared as an insert for a later draft.

MS. begins, "The mild mysterious summer evening had begun to wrap fold all nature in its soft deep mysterious glow warmth . . . ."

MS. ends, "... and baby looked just too Ducky laughing up out of his laughing gleeful eyes and the Cissy poked him like that"

MS. ends in middle of sentence and paragraph, indicating that another MS. existed in which the second part of "Nausikaa" was continued.13

---

12 Slocum & Cahoon, item E. 5. b. vi.; La Hune, item 257.
13 The Cornell Joyce Collection contains two notebooks in which this draft of "Nausikaa" is continued (Robert Scholes, item 56). The first MS. (rectos numbered 21-28) continues the last sentence of MS. V. A. 10., "out of fun in his little wee fat tummy . . . ." The second MS. continues with the episode (rectos numbered 29-35) and ends, "... on the rock looking was Cuckoo. Cuckoo. Cuckoo."

Notes: This is an early draft. The MS. is at the same stage of development as MS. V. A. 12.

MS. begins, “By no pomp of pride or mark of mightiness is the wellbeing of a people more surely proven than by its tribute of solicitude . . .”

MS. ends, “. . . and well met they were, said Dixon, but by my troth, better were they named Beau Mount and Lecher for of . . .”

V. A. 12. ULYSSES HOLOGRAPH MSS.: OXEN OF THE SUN

14Slocum & Cahoon, item E 5. b. vii.; La Hune, item 258 A.

15The eight “Oxen of the Sun” MSS. in this collection represent two different stages in the development of the episode. MSS. V. A. 11. and V. A. 12. are early drafts. Probably Joyce divided the episode into four parts at this point, since each of the MSS. represents about 11 pages of the 45-page episode. MSS. V. A. 13., 14., 15., 16., 17., 18. are late drafts. Probably Joyce divided the episode into ten parts at this point, since each of the MSS. represents about 4½ pages of the 45-page episode.

V. A. 11. and 12. (probably the next draft). It is a late draft; the published versions follow this draft closely; correspondence in texts can be seen paragraph by paragraph.

**Notes:** This draft is an early version of the entire "Circe" episode, much expanded in the published form. The order of incidents often varies from published form; the action differs at times; new characters appear in the published form: e.g., in MS. Bella does not change to male Bello nor does Bloom change to female as happens in a scene of the published text (RH 518 ff.).

MS. begins, "(Faithful Place. Nighttown. Rows of flimsy houses with gaping doors. Rare smoky lamps. . . ."

MS. ends, "... Stephen (excitedly) I saw her in Serpentine Avenue, a fuby widow. Beelzebub showed her to me but waddling [?] in a puddle."

After the last words of the text, the following appears: 20

```
Schema
Money talk [orange]
Fortune telling [orange]
S D. flies
Dance of hours [blue]
S D's mother [blue]
Transformation scene [?]
```

*V. A. 20. ULYSSES HOLOGRAPH MSS.: CIRCE

**Loose Sheets,** Joyce's hand in ink. Some corrections; insertions in ink in margins, Joyce's hand (pencil lines point to where inserts should be placed).

---

20 This seems to be an outline for the next draft of the episode. The "money talk" scene (RH 542-45) was added later, not in this MS.; "fortune telling" scene is found on pp. [42, 43, 45] of MS. (RH 547 ff.); "S D. flies" scene is found on p. [65] of MS. (RH 557) and is very brief and undeveloped in both texts; "dance of hours" scene is found on pp. [40, 41] of MS. (RH 561-62); "S D's mother" scene is found on pp. [63, 64] of MS. (RH 564-67); "transformation scene" was added later, not in this MS., although introduction to it is found on p. [29] (RH 518 ff.).

Notes: The "'Ulysses Typescripts,'" MSS. V. B. 1.-16.,22 were made in preparation for the first edition of the novel. They seem to be the final typescripts from which the printer, Imprimerie Darantiere, Dijon, set up the first proofs after Joyce made additional corrections and additions. It appears that Joyce's typist made one original and three carbon copies of each episode. Joyce corrected the typing errors on all four copies, and then made additional corrections and additions before sending the typescript to the printer. Usually, these additions were made on one of the four copies only (but not necessarily the original). The extra copies were used to facilitate the preparation of the text for the printer (e.g., if a mistake was made or if an addition was canceled or changed, the page in question would not have to be retyped, but one of the other copies could be used), yet Joyce may have also requested the extra copies since he often sent copies of his drafts to Harriet Shaw Weaver, Ezra Pound, T. S. Eliot, or Frank Budgen.

Collation: Photostat in duplicate; 10 sheets each (total, 20 sheets). 30.7 × 20 cm.

Pagination: Pages numbered in left margins, 73–78, 78a, 79, 79a, 80.

Joyce had no other copy; he therefore asked John Quinn, who had purchased the holograph manuscript of *Ulysses,* to return the portion destroyed. Quinn had the requested pages photographed in New York and sent to Joyce, who then had these pages copied by hand (MS. V. B. 13. b. and part of MS. V. B. 13. d.) and typed (MS. V. B. 13. c., pp. 128–37 of MS. V. B. 13. e., and pp. 130–42 of MS. V. B. 13. h.).

Collation: 73 sheets, typing paper (pp. 26-32, thin typing paper); versos blank. Approx. 27 x 21 cm.

Pagination: Pages numbered in pencil, top right corners: 1-19, page not numbered (should have been numbered), 20-43, 46-74.

B. 15. c.-h.) in that on each page appear only one question and one answer, and no more. (In one case, the question and answer require more than one page and are carried over to a second page, pp. 46-47). Many of the queries and answers which are part of the published chapter are not to be found in this draft. The first question and answer on p. 1 of MS. can be found in a revised form on RH 653.12-18 (where they have become the 16th question and answer of the episode). Pagination: Page numbers in pencil, top right corners: 1-45, 44, 44a, 45-73. (Because of a number of errors in pagination the page numbers of the MS. do not match those of MS. V. B. 15. a., although this is a duplicate of that MS.)

Contents: Typescript of a large portion of the "Ithaca" episode, a complete carbon copy of MS. V. B. 15. a., but part of this MS. are two pages, pp. 72, 73, missing from that MS., RH 722.14-17, [18]. No additions; one minor typing correction in pencil on p. 69.

er, and first sheet, which is not numbered. Many sheets also bear old typed page numbers on top right corners; these numbers have been superseded by the pencil numbering.

Contents: Typescript of most of the “Ithaca” episode (RH 650-722). Profuse corrections and additions in ink, Joyce’s hand, on most rectos and on many versos.

Other Markings: A number of pencil markings and clarifications—probably marks of printers. Some markings in blue, green, orange, and red crayon. Printers’ signatures in pencil on pp. 6, “8a”, (16), 20, 25, “30”, (41), 43a, 52, (67).

Dating: ca. 1921.

Notes: This MS. is a most interesting example of Joyce’s method of composition—constant additions. Joyce here has taken a typescript of the “Ithaca” episode and made his revisions and additions first on the rectos, then, when more space was needed, on the versos, and finally, when the additions became too numerous, he has had certain pages retyped. The retyped pages, because of the numerous additions, stretch to more than one page; for example, the replacement for the old p. 7 consists of two pages, now numbered 7 and 7a. Joyce then made further additions and once again had the pages retyped, thus replacing 7 and 7a with two new pages also numbered 7 and 7a. (The pages of the first typescript were typed with a purple ribbon and have four or five perforations in the left margin; the pages of the second typescript [intended as replacements for pages in the first typescript] were typed with a blue ribbon and have two perforations in the left margin; the pages of the third typescript [intended as replacements for pages in the first and second typescript] were typed with a purple ribbon and have two perforations in the left margin.)

Joyce did not destroy most of the old, replaced pages and many remain as part of this MS. For clarity, I have indicated the pages of the first typescript by parentheses, thus: (7); the pages of the second typescript are placed within quotation marks, thus: “7”; the page numbering of the third typescript is indicated by page numbers without any encumbrance of parentheses or quotation marks, thus: 7. The three typescripts were obviously combined in one folder by Joyce, as indicated by the perforations in the left margins of all sheets, where they were once fastened together, and by the relation of inserts on versos to their places on the following rectos.

I have arranged the typescript in the following order: (First sheet not numbered, recto blank, verso Joyce’s hand in ink, insert and corrections for missing [p. (1)] of typescript), 1, (2), “2”,
This is probably the final typescript from which the printer set up the type for the first proofs in combination with MS. V. B. 15. g., which is a further revision of a number of pages in this MS.

A number of pages missing from this MS. can be found in the carbon copies of MSS. V. B. 15. d. e. f. For copies of "missing" pp. (1), (9), (11), (22), (27), see pp. 1, 9; 1; 22, 27 of MS. V. B. 15. d. For copies of "missing" pp. "33", "34", "36", "51", see pp. 6, 7, 9; 4 of MS. V. B. 15. e. For a copy of "missing" p. 36a, see p. 36a of MS. V. B. 15. f.

VI. B. 1. FINNEGAN'S WAKE: HOLOGRAPH WORKBOOKS

Tablet, Joyce's hand in pencil (a few entries in ink).

Title: No title.

Collation: Grey, soft paper covers. 90 leaves of unruled paper (half of 86th and 88th leaves torn off), stapled: 178 pages written on, 2 pages blank. 21 x 13.2 cm.

Contents: This MS. and the other "Finnegans Wake Holograph Workbooks" contain scribbled notes; entries are mostly words, short

---

For MSS. VI. B. 1.-50., see Slocum & Cahoon, item E. 7. b., and La Hune, item 157.

See MS. VI. C. 3. pp. [51-177], for a transcription by Joyce's amanuensis of the entries in this MS. which were not crossed through with colored crayon.
phrases, and notes, although occasionally a short paragraph or fragment of a paragraph appears, for possible use in *Finnegans Wake*.

In MS. VI. B. 1. there are numerous references and notes on water, rivers, and laundry. Many of these entries have been used in Book I, Chapter 8, the "Anna Livia Plurabelle" episode, FW 196-216.

**Other Markings:** "'MAG-NIS' STENO-BLOC" printed in black on front cover. A small round label on the upper right corner of front cover gives the price of the tablet, "0'70." Many entries crossed through with red or green crayon.

**Dating:** *ca.* 1922-24.

**Publication:** This MS. and the other "*Finnegans Wake Holograph Workbooks*" are unpublished. *Finnegans Wake* was published in 1939 (New York: Viking Press; London: Faber & Faber).7

**Notes:** Joyce began to make notes for FW in the autumn of 1922;⁸ "on 10 March [1923] Joyce wrote a first sketch for a character in *Finnegans Wake*."⁹ The book was completed "in mid-November, 1938,"¹⁰ and "on 2 February [1939] Joyce exhibited a first bound copy of *Finnegans Wake*."¹¹ Therefore, it can be assumed that the "*Finnegans Wake Workbooks*" were written sometime between Autumn 1922 and November 1938.

More specific dating is given wherever possible. The dating is based upon internal and external evidence. This evidence may consist of an actual date found in the MS. in question, e.g., MS. VI. B. 5., p. [39], "today 16 of June 1924 . . ."; the evidence may consist of an address or the label of a stationer, e.g., MS. VI. B. 5. in which "S. Malo" is written on the back board, confirming the 1924 dating since Joyce spent the summer of 1924 in St. Malo;¹² or, as is true in most cases, the evidence may be based on a careful

7 The pagination of the Viking and Faber & Faber editions is the same. All references are to these editions of *Finnegans Wake*. For publication of fragments from "Work in Progress" in periodicals and in book form prior to the first edition of FW in 1939, see Slocum & Cahoon.

comparison of an entry in a MS. with FW and with the published portions of "Work in Progress" which appeared in various periodicals or were published separately in book form between 1924 and 1937, e.g., in MS. VI. B. 7., pp. [4-7], appears a portion of a paragraph which can be found in a revised and fuller version in FW 115.13-30, and also in *transition*, 5 (August 1927), therefore dating the MS. before 1927, or between 1922 and 1927, but the same paragraph can also be found in *Criterion*, III (July 1925), and in *Two Worlds*, I (September 1925), therefore dating the MS. before July 1925, or between 1922 and 1925.

It is, of course, assumed that Joyce did not copy an entry into a workbook after the entry was published. Wherever a phrase or passage has been clearly identified in a MS. and then traced to its first publication, it has been assumed that the MS. must predate the first publication. Whenever possible, a number of tests were made, and, wherever possible, this evidence was further confirmed by other evidence (such as marks of stationers, addresses, etc.).

I have not included in this catalogue the internal evidence upon which my dating is based, since the presentation of such evidence would entail giving numerous and lengthy quotes as well as numerous footnotes to show the appearance of the quoted passages in FW and in the various magazines which published fragments of "Work in Progress."¹³

Joyce's method of composition was one of constant addition and revision. This fact can be seen by an examination of the MSS. and by a comparison of the early published fragments with the final text of FW. This method, of beginning with a simple version and then expanding and embellishing, had previously been used by Joyce in writing *Ulysses*.

Most of the entries in the "Finnegans Wake Workbooks" are words and short phrases; paragraph-length entries appear only rarely. The words and phrases seem to have no connection with each other in most instances (although some pages of closely related words and ideas do occur). The entries in each notebook are in most cases not limited to a specific chapter of FW (although a few notebooks seem to contain material principally for use in one chapter only, e.g., MS. VI. B. 1., in which most of the entries are

¹³The reader who is interested in examining the internal evidence (the comparisons of entries in the workbooks with their appearance in FW and in the magazines which printed fragments of "Work in Progress") upon which my datings are based is advised to consult my dissertation (University of Buffalo, 1961), "An Annotated Catalogue of the James Joyce Manuscripts and Letters in the Lockwood Memorial Library of the University of Buffalo," where in the "Notes" section a sampling of the internal evidence for dating is included.
for possible use in Book I, Chapter 8, the "Anna Livia Plurabelle" episode).

Markings with colored crayon appear in all workbooks (with the exception of MSS. VI. B. 39., 43., 48.; in MS. VI. B. 28. entries are crossed through with pencil instead of crayon). Joyce indicated with colored crayons the words and phrases he had used in a draft of FW. The entries not crossed through with colored crayon seem (with rare exceptions) not to have been used. It is difficult to ascertain the exact purpose of each color since Joyce's use does not always seem to be consistent. But beyond doubt he had a definite system of composition and revision which utilized these colored crayons.

It is apparent that a specific color does not indicate the episode where the entries are to be inserted; i.e., there is no consistent relation between a color and an episode of FW; entries crossed through with the same colored crayon on the same page of a workbook may have been used in Book I and Book IV of FW. Rather, the different colored crayons may have been used simply to separate the various revisions; e.g., orange crayon may have been used to indicate entries extracted on the first trip through a workbook, blue crayon may have been used to indicate entries extracted on a second scanning of the workbook, green crayon markings may indicate a third utilization of the workbook, etc.

The "Finnegans Wake Workbooks" are not early drafts of portions of FW. They are, rather, notes to be used for the various drafts. The notebooks are written in hurriedly, without apparent consideration for order or clarity. (Because of the sloppiness of Joyce's hand, the numerous crossings out, smudging, and overwriting, the contents of the workbooks are often extremely difficult to decipher.) There are no revisions or additions. These facts indicate that Joyce used the workbooks as source books for embellishing and polishing the text of FW. The large number of "Finnegans Wake Workbooks" in the Joyce Collection of the Lockwood Memorial Library suggests that Joyce filled a number of notebooks each year. A close examination also indicates that Joyce filled each notebook from cover to cover before beginning a new one; therefore, the actual dating of each notebook can be narrowed down to a period of a few months when the notebooks were eventually edited. A definitive dating being outside the scope of a catalogue, I have not attempted to pinpoint the exact date of each MS. Instead, I have been satisfied with showing the boundary lines of dating; that is, I have, to the best of my ability, indicated the earliest and latest dates at which a manuscript was probably written.

16I have used the chapter titles for FW given by Glasheen in A Census of Finnegans Wake throughout this catalogue.

17"t 12" signifies transition, No. 12; "t 13" signifies transition, No. 13. Similar markings appear in ten other VI. B. MSS. and one VI. D. MS. Besides "t 12" and "t 13," reference is also made to "t 11," "t 14," and "t 17," sig-

**Collation:** Black cloth covers; insides of boards, cover sides of front and back flyleaves of blue-and-white designed paper. Verso of front flyleaf, recto of back flyleaf written on. 168 leaves of ruled paper with red and blue vertical lines, stitched: 329 pages written on, 7 pages blank. 21.2 x approx. 13.2 cm.

**Other Markings:** Many entries crossed through with orange, blue, or green crayon. "R" on recto of back flyleaf.\(^{18}\)

VI. B. 5.  FINNEGAN'S WAKE: HOLOGRAPH WORKBOOKS

Tablet, Joyce's hand in pencil, a few entries in ink (a number of entries *not* in Joyce's hand).\(^{20}\)

Many entries of *transition* in which episodes of "Work in Progress" were to appear. The meaning of the "t" markings seems to be the following: Joyce, in preparing an episode for publication in *transition*, consulted his workbooks for further revisions, and to avoid confusion marked the workbooks used with the appropriate "t" symbol; e.g., in preparing Book III, Chapter 1 (FW 403–28), for publication in *transition*, 12 (March 1928), Joyce consulted a number of workbooks and indicated his use of these by the symbol "t 12" (marked at the beginning or end of these workbooks) in order to avoid consulting the same workbooks twice by mistake. "t 11" indicates preparation of a section of Book II, Chapter 2 (FW 282–304), for publication in *transition*, 11 (February 1928); "t 13" indicates preparation of Book III, Chapter 2 (FW 429–73), for publication in *transition*, 13 (Summer 1928); "t 14" indicates preparation of Book III, Chapter 3 (FW 474–554), for publication in *transition*, 15 (February 1929)—the episode was not ready in time for inclusion in *transition* 14, for which it had originally been intended, hence "t 14" instead of "t 15"; "t 17" indicates preparation of Book III, Chapter 4 (FW 555–90), for publication in *transition*, 18 (November 1929)—the episode was not ready in time for inclusion in *transition* 17, for which it had originally been intended, hence "t 17" instead of "t 18."

Dating: ca. 1939.81

81See Letters of James Joyce, p. 404, for two letters headed "34 Rue des Vignes, Paris XVI," one of which is dated "4 April 1939." The purchase of the notebook in Bern, Switzerland, as the label of the stationer indicates, would also confirm the 1939 dating. See Ellmann, "A Chronology of the Life of James Joyce," in Letters of James Joyce, pp. 43-50, where only one reference is made to Joyce's having visited Bern: "In July [1939] the Joyces were at Étretat, in August at Berne" (p. 50).

The 1939 dating of this MS. indicates that Joyce continued to make notes on Finnegans Wake after its publication (officially published May 4, 1939, but Joyce possessed a copy on February 2, 1939). The lack of colored crayon markings may be further indication that the MS. was not used in the writing of FW, but was intended for use in possible revisions after publication.

VI. C. 1. FINNEGANS WAKE: TRANSCRIPTIONS OF WORKBOOKS

Notebook, in hand of Joyce's amanuensis, Mme. France Raphael, in ink.

Title: "1" in blue crayon on verso of front flyleaf and recto of back flyleaf.

---

86 Not included in *transition*, 12 (March 1928), 20-21.
87 For MSS. VI. C. 1.-18. see La Hune, item 157, and Slocum & Cahoon, item E. 7.b.
Collation: Floral-designed maroon board covers, black spine; insides of boards, cover sides of front and back flyleaves of blue-and-white designed paper; verso of front flyleaf, recto of back flyleaf white; all edges of leaves marbled blue and white. Verso of front flyleaf, recto of back flyleaf written on. 140 leaves of ruled paper, stitched: all pages written on. Approx. 18.8 × 14.5 cm.

Contents: Copies of the entries in the "Finnegans Wake Workbooks" which were not crossed through with colored crayon:

Other Markings: "Mme Raphael 18 rue Boissonade—Dant 73.39" in Joyce's hand in pencil on verso of front flyleaf. "A. Roques & Fils 1 & 3, Rue de Condé 4, Rue de l'Odéon Paris (VIe)" on printed white label of stationer pasted on upper left corner of inside of front cover. "38" stamped in purple on upper right corner of verso of front flyleaf—mark of stationer. Many entries crossed through with red, orange, or blue crayon.

Dating: The eighteen VI. C. MSS. were written by Mme. Raphael between 1933-36.88 The dating of MS. VI. C. 1. is ca. 1933-35 (probably 1933, since it is the first of the notebooks copied).

Publication: This MS. and the other VI. C. MSS. are unpublished.

Notes: These 18 notebooks contain clear copies of the entries in the "Finnegans Wake Workbooks" which were not crossed through with colored crayon, and, therefore, not used in the early revisions of "Work in Progress." Subsequent to Mme. Raphael's copying, Joyce made use of these notebooks in further revisions (or in the writing of new sections) of "Work in Progress," as indicated by the colored crayon markings which appear in these notebooks. The colored crayon markings indicate those entries which were used in revisions. The entries not crossed through with colored crayon seem not to have been used in FW.

Thirty-three of the VI. B. workbooks have been copied by Mme. Raphael into the VI. C. notebooks. (Two of the loose sheets of MS. VI. B. 49 have also been copied.) Some of the VI. B. workbooks have been copied twice by mistake. The VI. C. MSS. also contain copies of seven notebooks which are not found in the Joyce Collection of the University of Buffalo. See section VI. D. for a descrip-

tion of these "nonexisting" notebooks. Joyce has used a section of MS. VI. C. 18. (pp. 95-300) for additional notes for FW. See VI. C. 18. for a description. (The Joyce section of that notebook has also been cross-referenced as VI. B. 41.)

Mme. Raphael has made numerous errors in her transcriptions, obviously caused by the immense difficulty of deciphering Joyce's scrawl.

Collation: 2 sheets of typing paper, versos blank, held together by a gold-colored paper fastener on top left corner. 26 × 20.2 cm.

Contents: Errata for *Dubliners*, based on the first edition (London: Grant Richards Ltd., 1914). A list of errata was drawn up by Joyce and sent to Grant Richards on February 2, 1915, in anticipation of a second edition; in 1917 Joyce requested J. B. Pinker to send the errata for *Dubliners* to his American publisher, B. W. Huebsch; the MS. was then to be given to John Quinn. It seems that Pinker sent the Joyce MS. of errata to John Quinn, and a typescript copy of the errata to B. W. Huebsch. The manuscript described here is the typescript copy.

7 Slocum & Cahoon, pp. 134-35.

8 The Joyce MS. of errata given to Quinn is now in the Slocum Library of Yale University.
Notes: The corrections listed in this MS. have not been made in the subsequent editions of *Dubliners*, although 6 of the 30 corrections can be found in later American editions (7 in English and Continental editions) — probably made by proofreaders independently.

LETTERS FROM JAMES JOYCE
X. LETTERS FROM JAMES JOYCE

The letters to each recipient are arranged in chronological order. The salutation and opening of each letter are given for the purpose of identification; the opening phrase is in no way intended to summarize the letter or to indicate its subject matter. When a letter or postcard is dated, the date is given in the standard form: day, month, year. A date in square brackets is based upon definite internal evidence. A well-educated guess is indicated by "ca." and square brackets. When a dating is based on a hunch, it is followed by a question mark and enclosed in square brackets. A few undated letters are labeled "not dated" and are filed after the dated letters. The sender's (Joyce's) address is cited in the same manner as the date whenever possible.

(N.B.-The reader is again reminded that only the letters of Joyce are here described; the many letters to Joyce and about Joyce which are also part of the Buffalo Joyce Collection are not included in this catalogue.)

THE ORDER OF THE VI. C. MSS.

Joyce's numbering of the VI. C. MSS. seems inaccurate; a more useful order would be the following: 1., 2., 3., 4., 5., 7., 6., 8., 9., 10., 16., 15., (11.), 12., 13., 14., 17., 18.

VI. C. 11. does not logically fit into the sequence. This is probably due to the confusion caused by the fact that Joyce used the VI. B. workbooks during the time that Mme. Raphael was transcribing them. Therefore, Mme. Raphael was, at times, obliged to stop her transcribing in the middle of a notebook, begin work on another transcription, and at a later date continue the interrupted notebook. (The same situation seems to have caused Joyce’s amanuensis to copy some MSS. twice by mistake, MSS. VI. B. 3., 17., 20. and VI. D. 2., 5.) Note also that the above proposed order is not quite correct either since, for example, VI. C. 1. begins in the middle of the notebook which is being transcribed (the first portion of this notebook is found transcribed in the middle of VI. C. 6.).
